U. S. TO UNITE MEN AND JOBS

Postmasters in Every Town and the 200,000 Agricultural Department Agents Will Handle the Work

Washington, Jan. 9.—A national employment bureau, reaching into every part of the United States, will be put into operation by the Department of Labor next week, carrying out the suggestion of President Wilson in the Indianapolis speech for "a systematic method of helping the workmen of America."

Preliminary work for the bureau has been completed, it was announced tonight by Commissioner Caminetta of the immigration bureau. Instructions were sent to the thousands of postmasters and rural mail carriers throughout the country and to nearly two hundred thousand field agents of the Department of Agriculture, which will co-operate with the Labor Department to bring the jobless man and the manless job together.

The general plan of the employment bureau was outlined by Mr. Caminetta as follows:

Notices will be posted in all post-offices announcing that application for work or workers will be received by the postmaster who will be supplied with forms to be filled out and forwarded to the Labor Department agent in charge of the zone in which the office is located. The distribution branch of the immigration service will handle this part of the work and to them also will go the reports of the Department of Agriculture agents as to sections where help is needed in harvesting or other work. Applicants will then be informed of the place where they can obtain work, the postal service acting as the distributing and collection agency for applications and replies throughout the transactions.

Plan Big Berry Acreage

Cran, Mo., Jan. 7.—The Hurley Commercial club at its regular meeting devoted the time to a discussion of the strawberry industry in Stone county and decided to make an effort to organize an association this spring, embracing the territory adjacent to Hurley and Crane. A number of the Hurley Commercial club said 125 acres probably could be secured in the vicinity of Hurley, which would allow shipment in car lots. Another strawberry meeting has been arranged for by that club in the near future at which addresses by expert berry growers will be heard.

BRYAN LAUDS WILSON LAWS AS THE BEST EVER ENACTED

"Common People" Have the Greatest Heritage Ever Given by a Party He Asserts

Washington, Jan. 7.—Secretary Bryan was the principal speaker tonight at a Jackson Day celebration held under the auspices of the Woman's National Democratic League in convention here.

He lauded Jackson as one of the two greatest Democrats of history, and urged American women to rear their children according to Jackson's principles of Democracy.

Mr. Bryan analyzed in detail the record of the Democratic party, paying particular attention to the legislative program of the present administration. Incidentally he reiterated his conviction that women should have the right of suffrage. "The right of voting," he declared, "requires the expression of two qualities—intelligence and morality. Until it can be proved that women have not these qualifications they should not be denied the ballot."

Referring to the record of Congress during the last session, Mr. Bryan praised the tariff, the currency, the parcel post and other laws, characterizing them as the greatest heritage ever given the common people by any political party.

Speaker Clark addressed the afternoon session of the convention, predicting a Democratic victory in 1916.

"I believe," said the speaker, "that the Democratic administration has put more constructive legislation on the statute books than any other Congress. I believe the American people will indorse us and continue us at the helm of affairs for what we have done."

At Fairview last Friday afternoon Clifford Miller, the 16-year-old son of Charles H. MAKES DISHONESTY UNSAFE

It is true that no election system will be honest unless the men controlling the election are honest.

But Governor Major insists that honest election commissioners be given the chance and the power to make their honesty effective.

Especially the primary laws as now on the Missouri statute books put the real power of election control with the uncontrolled city machines.

The new election code, as outlined by the governor's commission, puts the control with the responsible public servants and makes dishonesty as unsafe in the election booth as in the postoffice.—Kansas City Star.

REED AGAINST WILSON

Washington, Jan. 7.—Another check to the administration's legislative program was given this afternoon by Senator Reed of Missouri, who has been opposing the president on nearly every item of his program.

Reed suggested at the meeting of the senate Philippines committee today that it would not be wise to pass a bill which virtually promised the Philippines independence until the committee was satisfied as to the strategic and military value of the islands to this country.

CANDIDATE FOR GOVERNOR

John M. Atkinson, chairman of the Public Service Commission, and former speaker of the house of representatives, has definitely announced that he will be a candidate for the Democratic nomination for governor of Missouri.

His is the first public announcement for the position but it is supposed that Attorney General John T. Barker will announce later.

An exchange says that a lake of fire and brimstone is not the only hell on the map. He suggests the man with a \$50 wife and a \$15 job as a close second.

It seems to be generally understood that Governor Major will be a candidate for United States Senator to succeed Senator Reed. The Governor's stand with President Wilson and his policies will commend him to the voters of Missouri.

It is becoming almost impossible for one to pick up a leading newspaper without seeing an item saying that Senator Reed, of Missouri, is opposing the President's legislative program, or one of his appointments. If the senator expects to make capital for himself by these proceedings he will find himself mightily mistaken. The masses of the people of Missouri are with President Wilson in his fight for the public interests. The spoils system does not appeal to them.
